for integral processes

prismat – Your SAP partner for
trendsetting logistics

Close-to-standard, innovative, comprehensive

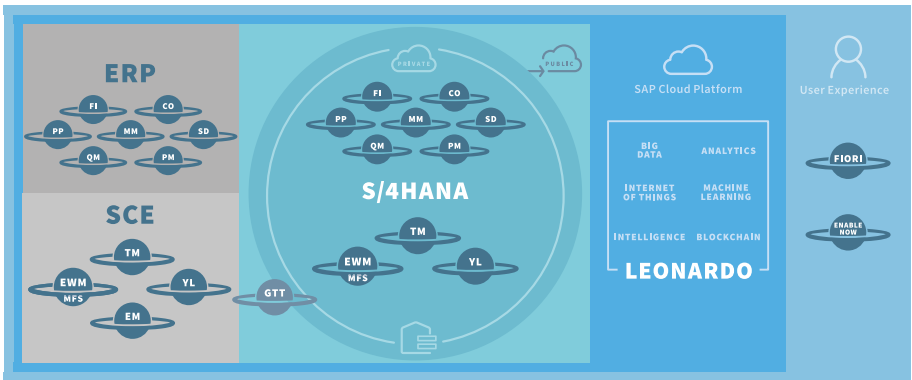

[prismat.de](https://www.prismat.de)

The SAP Specialists for your logistics

Our expertise for comprehensive solutions

prismat GmbH will guide you through the implementation of tailor-made and sustainable SAP solutions – from conception to implementation to support of the operational system. Being a certified S/4HANA® partner as well as a SAP® Certified *Partner Center of Expertise*, we are offering a comprehensive service

portfolio consisting of licenses, consulting, implementation, mobilization, support and also training for EWM, TM, YL, ERP, S/4HANA®, Fiori and Cloud. Furthermore, we already make full use of state of the art technologies and approaches combined with the innovation portfolio SAP® Leonardo (thereby e.g. *IoT* processes).

Our services

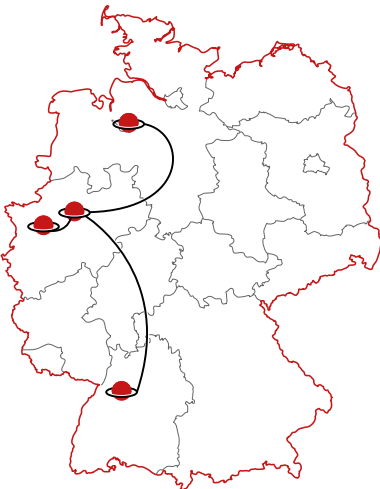

- Deployment analyses, prototyping, proof-of-concept for individual objectives
- Implementation, expansion and optimization of SAP solutions
- Drafting of specifications and business blueprints
- SAP project audits
- Spot, sizing and basic consulting
- Training (basics, key user, logistics user, developer)
- SAP licenses including maintenance, incl. SAP HANA®
- 24/7 Support
- EWM-RAKETE® and TM-RAKETE®
- Mobile solutions (apps, etc.)

About primat

Pioneers of logistics: experienced, innovative, close-to-standard

As a spin-off of the Fraunhofer Institute for Material Flow and Logistics (IML), we've been designing and implementing cross-system and close-to-standard holistic solutions for our clients' logistical processes. For more than 25 years now.

With the DNA of our origins running strong in our culture, we design standards for logistics processes and systems, undertake research and pilot projects, and create sustainable solutions based on innovative technologies.

Aside from its headquarters in **Dortmund**, primat GmbH maintains branch offices in **Ratingen**, **Stuttgart** and **Bremen**, employing more than 150 people across all sites.

Seamless integration

From manual warehousing to highly automated distribution centers

Due to our many years of experience in applied projects, we can provide many references of live production systems featuring a wide range of automation technologies. We have successfully

integrated the following warehouse, material flow and order picking technologies in our EWM projects. Furthermore, we are offering one-stop GC solutions together with viastore SYSTEMS.

Warehouse and material flow technologies

Pallet warehouses

High-bay storage

Storage carousels

Container conveyor systems

MLS

AS/RS

Flow rack storage

Tray warehouses

Pick-by-Voice

Pick-by-Light

Pick-by-Vision

Our references

prismat quality – tested and validated

To date, prismat has successfully implemented more than 250 SAP projects for renowned companies, covering a wide range of logistic applications. Especially with demanding objectives, it is paramount to choose a competent and reliable partner.

In order to be able to convince our prospective clients of our superior quality, we have all our projects validated by the independent experts from **warehouse logistics**. The leading

portal for Warehouse Management Systems (WMS) is operated by the Fraunhofer Institute for Material Flow and Logistics (IML) and offers a comprehensive overview of whole range of service providers on the WMS market.

Here, you can obtain a reliable impression of our competence and our reliability. Right from the start, we can show the highest number of validated SAP EWM references on the entire market. This proves a quality we are proud of.

What our customers say about us

»Together with our implementation partner prisma, we were able to create a sustainable foundation to handle all future requirements on our logistics and also on our IT.«

Holger Thrun,

FÖRCH Group General Manager Supply Chain Management

»prisma has managed to get us a bespoke suit right from the rack.«

Georg Schukat,

General Manager Schukat electronic Vertriebs GmbH

»The project performance and cooperation with prisma were very constructive, successful and based on trust.«

Markus Rathmann,

Head of Supply Chain Management of the EJOT Group

»With prisma we were able to implement a close-to-standard integral solution within a very competitive timeframe and with just the right degree of automation, which also covers our complex yard processes.«

Magdalena Bachmeier,

Team Leader Supply Planning Logistics Paulaner Brauerei GmbH & Co. KG

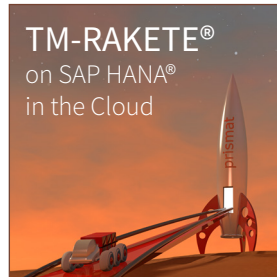

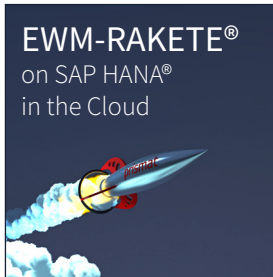

Innovative Technologies

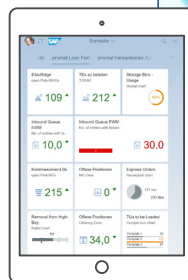

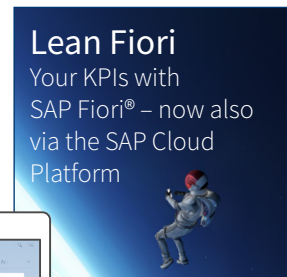

Taking off with our Cloud solutions

Based on our extensive expertise and experience, we have developed sustainable solutions that will afford you a running start with state of the art technologies for your logistics. Our Cloud solutions are ready to use in record times and at a bargain price.

With our modular starter packages for SAP EWM and SAP TM – our **EWM-ROCKET** and **TM-ROCKET** – you'll ensure the sustainable growth of the know-how of your own project team by practical testing of common as well as custom processes.

The SAP Fiori® Launchpad provides you with clear, up-to-date und customized performance indicators. Our Fiori Set **Lean Fiori** is the ideal way to get started. By being provisioned via the SAP Cloud Platform, Lean Fiori does not depend on the release status of a given SAP system and can be deployed without installation but with unmatched speed. Even worldwide.

The SAP Specialists **for your logistics**
