Our clients appreciate our industry and business expertise as well as working with us as partners. Here are some examples:

**Automotive Industry - leading car manufacturer:** program management, architecture, design and implementation in the field of the new SAP Service Parts Management (SPM) solution. Achieved a worldwide first go-live of a fully automated warehouse with SAP Extended Warehouse Management (EWM).

**Utilities - leading energy producer:** design of a long-term strategy regarding the application portfolio and data management following an acquisition. Design of optimized master data management using SAP-MDM, -PI, -ECC and a geographical information system (GIS) amongst others.

**Pharmaceutical Industry - leading pharma company:** post-merger integration by successive adjustment of legacy systems to SAP. Consideration and solution of all organizational procedural and application-technological specifications, e.g. cGxP (FDA compliance).

Guiding you through all terrains...

**Westernacher:**  
Business & IT Experts  
Based on Partnership  
Trusted Worldwide

... to excellence in business and IT
