

LOGISTIC LECTURES

EXCLUSIVELY FOR PARTICIPANTS OF THE LOGISTICS IT DATABASE

The »Team warehouse logistics« of the Fraunhofer Institute for Material Flow and Logistics offers you, as a participant of the »Logistics IT Database«, the exclusive opportunity to book current logistics lectures. The presentations are held by experts from various fields of intralogistics. With these presentations you can provide partners, customers and interested parties at events (e.g. customer days) with a professional and innovative insight into the logistics of the future.

We offer you the following logistical topics:

FASHION LOGISTICS

- Tailor-made solution for dynamic logistics
- Effects of online trade on intralogistics in fashion industry

Logistics IT

- Opportunities and risks in selection and implementation of a WMS, TMS, SLS, RPS, BI and Pick-by- Systems
- Trends and developments in Logistics IT

INTRALOGISTICS PLANNING

- Rethinking planning – New approaches to short-cycle planning
- Intralogistics Solutions – Picking on the way to automation

LEAN WAREHOUSING

- Lean Management as enabler of digitalisation
- Managing demographic change with Lean Warehousing

COGNITIVE ERGONOMICS

- Ideal workplace design with focus on the mental workload
- Ideal design of the cooperation between people and technology

LOGISTICS 4.0

- Introduction of digitalisation in intralogistics
- »Think big, start small« – Introduction of Logistics 4.0 in companies

OUR SERVICE:

- Lecture of approx. 30 minutes
- In German or English language
- The costs of the lecture amount to 1.500 € plus travel expenses
