

# BOOST YOUR SUPPLY CHAIN EXECUTION

LEA REPLY™ SUPPLY CHAIN DIGITAL PLATFORM

# WHY LEA REPLY?

In the age of “**everywhere-at-anytime commerce**” customer expectations have become increasingly complex and supply chains more distributed. Companies are challenged to meet the seemingly contradictory goals of product customisation and efficient mass production.

Responding to these challenges was a core objective in creating our new digital platform **Logistics Execution Architecture, LEA Reply**.

**LEA Reply is an interconnected digital platform that enables agile and cost-effective supply chain solutions tailor-made for your business needs.**

## **BUSINESS EMPOWERMENT**

Improved visibility, efficiency and collaboration to drive tangible benefits

## **EASE OF USE**

User-centric design for simpler and more effective operations

## **CUTTING EDGE TECHNOLOGY**

Easy integration of AI, wearables, smart devices and next gen technologies

## **AGILITY & ADAPTABILITY**

Agility in order to adapt with ease to specific business needs

# LEA REPLY APPLICATIONS

## WAREHOUSE MANAGEMENT

LEA Reply™ WMS **manages operational warehouse processes** and provides **accurate monitoring of stock levels**, working effectively in any distribution or production environment.

## LAST MILE

LEA Reply™ Last Mile **facilitates last-mile delivery** pick-up and drop-off activities including route optimisation, real time updates on delivery status, payments and digital signatures.

## DOCK SCHEDULING

LEA Reply™ Dock Scheduling is a **collaborative solution for the distribution of loading and unloading appointments** at warehouse docks via a cloud-based portal.

## STORE LOGISTICS

LEA Reply™ Store Logistics is the **innovative solution for managing point of sale logistics** using RFID tags, enabling companies to streamline multichannel management.

## HUB & NETWORK

LEA Reply™ Hub & Network manages **sorting centres and handling hubs in real-time**, allowing quick and timely routing of inward parcels to the next destination.

## DROPSHIP

LEA Reply™ Dropship is a supplier-direct fulfilment solution in which a **retailer does not stock goods but transfers customer orders to the supplier**, who then ships directly to the customer.

## SUPPLIER PORTAL

LEA Reply™ Supplier Portal is a cloud-based tool which enables **tracking of in-transit products at suppliers' premises**, providing real time visibility of incoming stock.

## YOUR SOLUTION

Haven't found what you are looking for above? Our service-based architecture allows us to quickly develop tailor-made solutions **for your specific business needs**.
