

LOGISTICS IT INNOVATION FORUM IN COOPERATION WITH FRAUNHOFER IML

To provide your partners, customers and interested parties with insights into new and future-oriented developments and technologies in logistics, we offer you the chance to organise an innovation forum together with us. As a partner at your side, the event can take place in the premises of the Fraunhofer Institute in Dortmund and will be supplemented by specialist lectures.

The procedure and scope will be planned and individually designed in consultation with you. In addition to lectures from various areas of Fraunhofer IML, we offer you the opportunity to take a guided tour through the institute to see all the exhibits and demonstrators live. By this you can offer your visitors insights into current research topics in logistics as well as in developments in the market of Logistics IT systems.

Agenda proposal:

10:00am - 10:30am Welcome
10:30am - 11:00am Speech »Team warehouse logistics«
