About us

Supply chains are growing more complex by the day. Körber uniquely provides a broad range of proven, end-to-end supply chain solutions fitting any business size, strategy or appetite for growth. Capable of delivering not just software, but automation, voice, robotics, and materials handling – plus the expertise to tie it all together. We are a global partner not just for today, but also as the needs of supply chains continue to evolve.

Conquer supply chain complexity – with Körber.

Find out more on www.koerber-supplychain.com

Today, less than 10% are prepared to handle complexities from more products, suppliers, distribution channels and rising consumer expectations.

You need more than a vendor. You need a partner that can deliver software, automation, voice, robotics, materials handling, plus the expertise to tie it all together. That partner is Körber. Let's conquer your supply chain complexity, together.

 **Supply Chain Software:** An all-encompassing suite of Supply Chain Software designed to help manufacturing and distribution organizations to maximize space, improve efficiencies and increase productivity across the entire business.

 **Automation Solutions:** Manufacturing and distribution organizations know that automation can improve efficiencies, maximize space and increase productivity across their supply chains.

 **Voice, Vision & Mobility:** Solutions to re-engineer and improve processes while optimizing business efficiency.

 **Robotics:** A suite of robotic solutions to respond to today's supply chain demands, optimize floor operations, transportation, processing, fulfillment and staff safety.

 **Material Handling Equipment:** A comprehensive suite of material handling equipment designed to optimize supply chain automation for increased efficiency and productivity across warehouses and distribution centers.

 **Software Consulting & Implementation:** A full range of high-level services to enhance both the efficacy and efficiency of systems and the staff responsible for them, supporting your company's supply chain from end to end.

 **SAP Software Consulting & Implementation:** A comprehensive suite of SAP solutions provides integrated and holistic management systems for small to large-scale manufacturing and distribution organizations.
