

About io-consultants

io-consultants provides integrated consulting, design and planning services for production, logistics and supply chain management, as well as for architecture and IT projects.

Since our launch in 1958, we have been helping our clients improve their supply and value chain with a wide range of services, from developing ideas into strategies to implementing complex industry projects as a lead consultant.

At io-consultants, experienced specialists work in interdisciplinary teams. Together we create customised solutions and processes according to the specific requirements of each client. We call it United to Perform! The results are reliable, productive and efficient solutions that lead to measurable success.

With more than 250 employees, io-consultants is one of the leading technical consulting and planning companies at your service in eight locations across the world. Besides the headquarters in Heidelberg (Germany), the company has subsidiaries in Munich, Leonberg, Berlin, Bethlehem (PA, USA), Singapore, Dubai and Hong Kong.
