

Next generation warehousing.

Picking made easy with Westernacher We scan | S/4HANA® cloud.

SAP S/4HANA cloud – the smart strategy for warehouse management.

SAP S/4HANA cloud delivers the innovation you need to run at your very best. Whether it's optimization or complete reinvention that you're after, utilize the latest technologies such as machine learning and in-memory to take your company to the next level of success.

Easier to access. Simpler to navigate. Just as powerful.

Westernacher has harnessed the power of SAP S/4HANA cloud and added its own features, complementing all that SAP has to offer while making it all the more accessible with an Android- based application that is simple to use and easy to set up. With Westernacher's user-friendly offering, you have everything you need to manage your warehouse processes simply and seamlessly from the cloud. All that is required is an S/4HANA cloud account, Android handheld (Android v 4.3) and the Westernacher We scan | S/4HANA® cloud application.
